

You are riding round on E
You see red instead of Green
To much tension on your mind
come see me and I'll give you a ride

Cause I am always here to give
a little love can give you a lift
I've got lovin in my soul
Here to give you when you're running
low, low, low

When your Love is on E, yah, yah, yah Come see me
When your love is on E yah, yah, yah
Come see me, come see me

Cause if you feel a little funky and you don't know why
Could be the lack of love that's flowing through your life
step up to my pump and I'll give you what I got
I gonna keep love flowing till' we reach the top

I'm gonna fill your heart with all I've got to give
for my love expands with every little kiss
So look me up when you're running low
cause when your love's on full the good times always roll

Chorus / 2nd verse again / **Chorus** / Keep it Rolling.....
