From the CD  
World Radio 13

I'm here shining my light for the first time in years  
Nobodies on the phone and you're sitting home alone - Here's what to do  
Parties outside and you feel you've been denied - here's what to do

Relax your mind - breathe in as your body unwinds

Cause I'll be there to lift you when you fall  
yes I'll be there to guide you through it all - Love is in this song

I'm here shining my light for the first time in years babe

I'm here shining my light - 2x

for the first time in years, first time in years

Flowers in your hair living life without a care - you seek the truth  
Loving everyday finding sunlight through the rain - you trust in you

And I'll be there to help you follow through  
Yes I'll be there when darkness blinds the truth  
Yes I'll be there to help you realize  
we've all got a light to shine so Shine

## Chorus

Shine on like the moon and stars that shine from above  
shine on like the beautiful rays that come from the sun
