Come closer baby now and give me a hug
my body's buzzing to your slighttest touch
Feel me jumping, fingers touching every inch of you

Slowly undress me skin on skin
Rockin you gently skin on skin

Move with me baby now and don't let go
Flow with the rhythms as our body's roll

Around the bed babe, skin on skin
You're giving me chills babe, skin on skin

No need for talking I can read your mind
yah your body's singing and my souls a fire
for you, it's true yah , let's get it on babe ,
Skin on Skin

Yah your body's sliding baby with the night
as your hair is falling and you close eyes
one kiss, from your lips,
yah can keep love high all night
All Night, all night skin on skin
You've got me rolling love is flowing, Skin on Skin
All night 4x, You've got me crawling, you've got me wanting
Skin on skin, skin on skin
